Our Clinical Trials Facility is expanding!

We need to raise £1.5 million* so that even more people can benefit from taking part in a world class clinical trial right here in Leicester.

This exciting new development will double the size of our Clinical Trials Facility. This means that we can offer even more world-class clinical trials where we test potential new cancer drugs and treatments for local people.

Together we are stronger

**Help us
make our
vision become
a reality**
